Help for Delete Item Records (item-11)

report will list the items that could not get deleted.

Note that if the update Database option is set to 'N', only a 'deleted' report list of the items that were requested for deletion and their circulation status. Not this status would prevent deletion of the item.

- **Notices File Name**

Enter the name of the Notices File. This file will contain the notices to the have been deleted.

- **Override**

Checking one of the check boxes will cause a deletion of an item even if it no alternative like items to move the request to. Not choosing it will not all are requested and there are no alternative like items to move the request t

- **Update DB**

Choosing 'Yes' will make the deletions in the the Database. Choosing 'No' that should have been deleted, but will not make the deletions in the Data

- **Record Management**

Choosing 'Delete' will delete HOL and BIB records which were connected t are now not in use by any item. Choosing 'None' will only delete the items and BIB records.

- **Run Time**

The service is submitted to the batch queue for execution on the day and uses a 24-hour clock. For example, 1 P.M. is 13. Valid hours are 00-23.

- **Library**

Select the library on which you wish to run the service. The libraries that a according to the user's permitted libraries.

- **Print ID**
